How on earth could anyone rate this dog less than 13/10!!

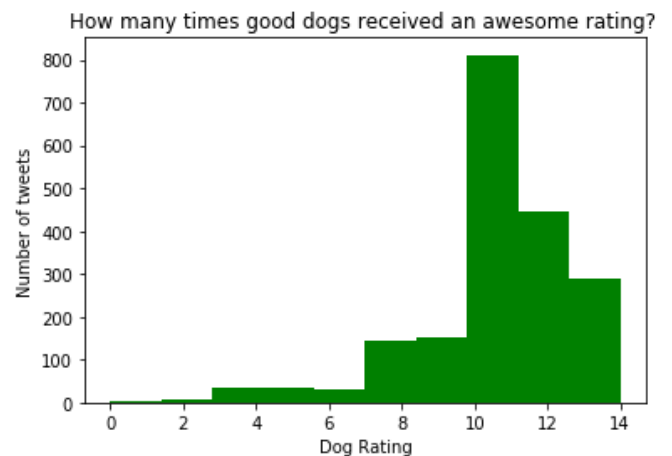

Source: https://twitter.com/dog_rates/status/862096992088072192

One thing you need prior to working with **WeRateDogs** is a sense of humor. This incredibly famous twitter account([@dog_rates](https://twitter.com/dog_rates)) is all about having fun. Over the years, it entertained everyone with thousands of tweets full of loads and loads of dog stories that definitely make one's day. In return? almost NINE MILLION followers. For any **WeRateDogs** loyal follower, all dogs are good dogs. That's why you won't be surprised if you see the next 10 dogs receiving a 13/10 rating. They deserve it anyway 😊

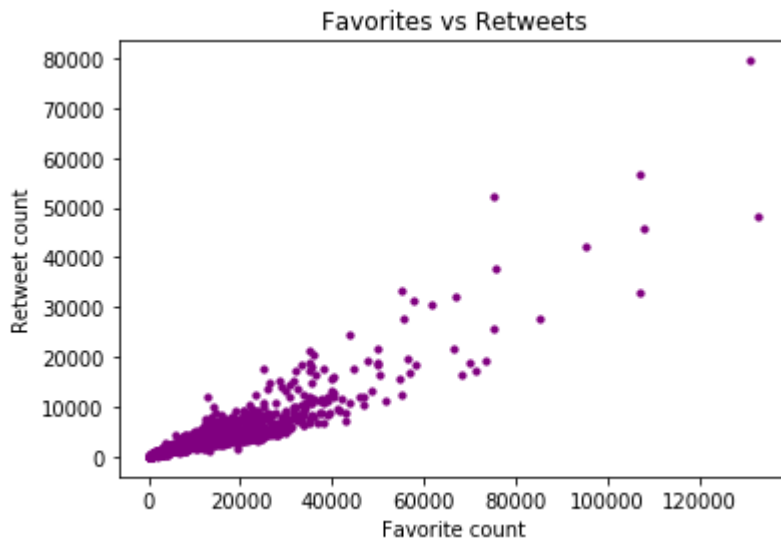

Analysis:

How many dogs do you think have received a rating higher than 10?

It is incredible how many dogs are receiving a 10 rating and above, something followers absolutely adore. Out of around 2000 tweets, 75%+ of them have received a rating of 10 or more. I have to say that I removed some outliers here and there. They didn't add anything to the analysis and actually was distorting the whole graph.

Retweet-Favorite Correlation

“Even in the most hilarious worlds, the Twitter rule always win”. More Likes – More Retweets. Analysis shows a clear positive correlation between the number of favorites a tweet received and how much it was retweeted, which is natural, No?

Be Careful! With WeRateDogs, you may prefer to double check your dictionary... So, whenever you see the word **Frustrating**, maybe it means **Hilarious** 😊

WeRateDogs® @dog_rates · Jun 22, 2016

We only rate dogs. Pls stop sending in non-canines like this Jamaican Flop Seal. This is very very frustrating. 9/10

Finally, I have to say It's hard to imagine any other place where you get a **2 out of 10** and no one calls you **a shame!!** **Actually NO**, at WeRateDogs, you're still absolutely loved!
